

2019-22 - Snow Removal - Amendment 01 - Changes to Scope of Work

Date: 10-28-2019

Purpose: Response to interested bidders providing recommendations for industry-standard snow removal protocols in our geographic region.

1. Page 4 - C. Scope of Services, 4th paragraph:

Old Language:

“All snow must be removed from JHC property. Specifically: curb areas, paved areas, and paved walkways all owned by JHC. This includes between vehicles that are parked within JHC parking lots. “

New Language:

“Snow should not be piled in such a way that would obscure visibility, block sidewalks, or occupy parking spaces and/or curb areas.”

2. Page 4 - C. Scope of Services, last paragraph:

Old Language:

Snow clearing shall be available on a continuous 24 hours per day and 7 day per week basis. The contractor will be required to regularly inspect properties during snow events or ice storms, without notice from JHC, to determine what snow clearing or ice control operations need to commence. The contractor shall be required to begin plowing when three (3) inches of snow has accumulated at a location and continue to plow at every three inch interval thereafter.

New Language:

Snow clearing shall be available on a continuous 24 hours per day and 7 day per week basis. The contractor will be required to regularly inspect properties during snow events or ice storms, without notice from JHC, to determine what snow clearing or ice control operations need to commence. The contractor shall be required to begin plowing when **one (1) inch of snow** has accumulated at a location and **continue to plow at every two (2) inch interval thereafter.**

3. Page 5 - C. Scope of Services, 2nd paragraph

Old Language:

“Ice control and traction materials shall be delivered and applied on a continuous 24 hours per day and 7 day per week basis.”

New Language:

“Ice control and traction materials shall be delivered and applied **as needed** on a continuous 24 hours per day and 7 day per week basis.
