The following changes have been made:

- Answers provided to questions received as of 7/20/20:

Question 1. We would like to place a bid on the project "Master Plan, Architectural & Engineering Services ". Please send the plans and scope for the projects. This project has IDIQ requirement, we are interested in having IDIQ. If you know how to get IDIQ please guide me.

Answer –

1. Definition of IDIQ

In U.S. Federal government contracting, IDIQ is an abbreviation of the term indefinite delivery/indefinite quantity. This is a type of contract that provides for an indefinite quantity of supplies or services during a fixed period of time. The legal origin of IDIQ contracts is the Federal Acquisition Regulation (FAR) section 16.504(a) (48 C.F.R. 16.504(a)). IDIQs are also sometimes called "Task Orders" or "Delivery Order Contracts."

Indefinite delivery, indefinite quantity contracts provide for an indefinite quantity of services for a fixed time. They are used when an organization can't determine the precise quantities of supplies or services that they will require during the contract period. IDIQs help streamline the contract process and speed service delivery.

Jackson Housing Commission

RFP: JHC- 2020-3 Addendum #3

IDIQ contracts are most often used for service contracts, particularly architect-engineering services. Awards are usually for base years and option years. The government places delivery orders (for supplies) or task orders (for services) against a basic contract for individual requirements.

2. IDIQ in relation to this RFP for Master Planner, Architectural and Engineering Services

a. Pgs 8 and 9 of this RFP explain that at this time Jackson Housing Commission (JHC) is putting into place the various consultants/disciplines/technical expertise that is believed to be needed in order to develop architectural plans regarding the improvements at the developments. There are no scopes or plans at this time. JHC endeavors to have the selected architect(s) etc. to be a part of the scope setting process and to develop plans. The specific tasks to be requested of the architect(s) etc. would be what is outlined in Task Orders and the Architects etc. charges for the specific tasks would be determined at that time.

b. Excerpted from pg 10 of this RFP for Master Planner, Architectural and Engineering Services:

To satisfy the requirements under this RFP, JHC will procure 1 or 2 Indefinite Quantity/Indefinite Delivery (IDIQ) contracts (ie – 1-2 architects will be selected under this RFP). As specific work under this RFP is further defined, Task Orders will be issued to the firm(s) that will specify their specific development/scope of work and dollar amount for the work and will be awarded based on funding availability. The contract term will be for two (2) base years with three (3) one-year option periods.

c. Excerpted from pg 10 of this RFP for Master Planner, Architectural and Engineering Services:

Fee Structure. Hourly rates are required. Selected firm(s) will be provided task orders by JHC, whereby the firm will provide a Fixed Fee or Not to exceed price for the specific task.

All other requirements of the RFP solicitation remain the same.
